KoreaBIO

KoreaBIO drives the growth of an innovative, globally competitive bioindustry. With 660+ member companies advancing every sector of biotechnology, we serve as the central hub of Korea's bio industry.

Human Resource Development

Cultivating strategic bio professionals to boost industry vitality and global competitiveness.

Research & Insights

Providing analysis of emerging issues and delivering strategic insights on the bioindustry.

Startup Support

Offering tailored programs for every growth stage of bio companies, from early startup to post-listing.

Policy Support

Serving as a communication channel with government to strengthen commercialization and technological competitiveness in the bioindustry.

Global Expansion

Supporting successful overseas market entry and building global networks for Korean bio companies.

660 +
MEMBERS

KoreaBIO unites 660+ companies driving innovation across healthcare, pharmaceuticals, energy, agriculture, and digital biotech.

40 +
YEARS

Since 1982, KoreaBIO has led Korea's bioindustry for over 40 years, fostering innovation and global competitiveness.

16,000 +
SUBSCRIBERS

With 16,000+ subscribers, KoreaBIO's newsletter delivers the latest bioindustry trends and insights worldwide, and our YouTube channel 'BIO TV' shares video stories on key industry topics.

Our Impact

KoreaBIO drives innovation and global growth in the bioindustry through policy advocacy and international partnerships.

Key Highlights

- **Human Resource Development:** Biopharma, GMP, and medical device training to meet industry needs and build talent.
- **Global Partnerships & BIX:** Hosting BioPlus-Interphex Korea (BIX), Asia's top bio convention, with 30+ conferences, exhibitions, and partnering programs. Supporting global networking, IR events, and overseas expansion for Korea biotech firms.
- **Research & Policy Support:** Providing industry data, analysis, and government liaison to advance R&D, improve regulations, and drive growth via investment, M&A, and business strategy support.

Global Mingle

KoreaBIO builds global partnerships and networks to help Korean bio companies expand internationally.

01

Global IR & Korea Night @JPM

Connecting Korean bio startups with global investors at the JPM Healthcare Conference, offering opportunities to showcase innovations and attract international funding.

02

Open Innovation Challenge

Facilitating one-on-one meetings with global pharma to foster partnerships, drive tech licensing, and support Korean companies' global expansion.

03

BIOPLUS-INTERPHEX KOREA Convention

Hosting a premier convention uniting bioindustry leaders from Korea and abroad, with exhibitions, conferences, and partnering programs.

04

Korea Pavilion

Showcasing Korean companies at the BIO Convention for over 20 years, providing a platform for global expansion through exhibitions, networking, and international collaboration opportunities.
